

The GCOS Perspective

Henri PFAHL

Vice-President, GCOS Business Unit

GCOS on Intel®-based servers

A SUCCESS

Diane: 256 systems (installed or ordered)

Helios: 23 systems (installed or ordered)

■ Satisfied customers

Compatibility, Reliability, Quality, Performance, Openness...

Capitalize on Intel® architecture

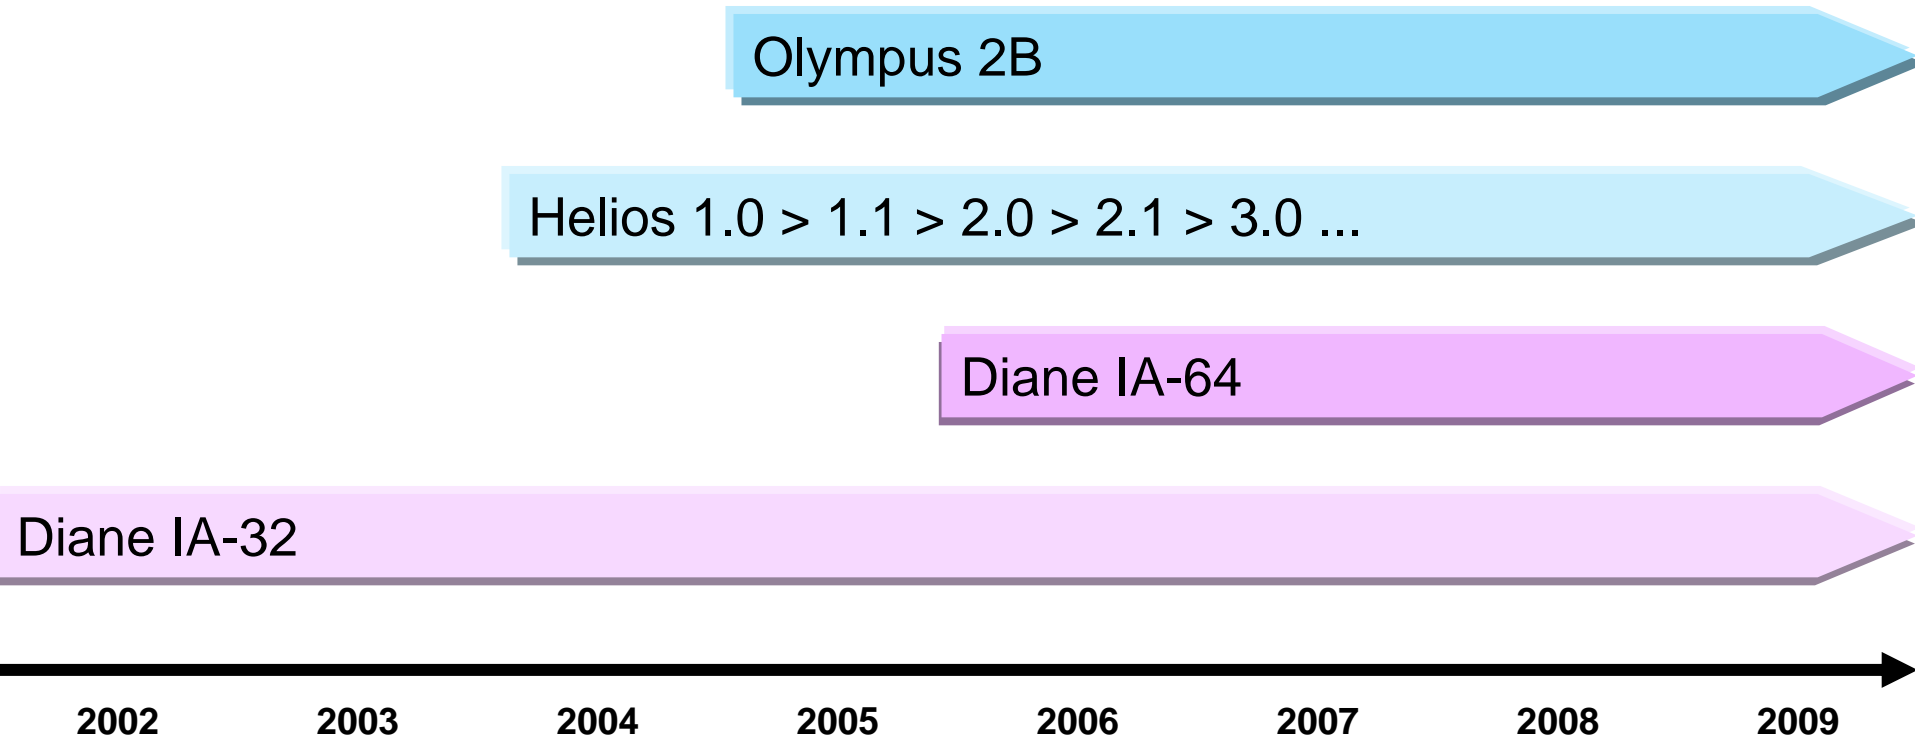

■ Intel® Itanium® Processor Family

- design for performance
- predictable future
- a long-term roadmap

■ Bull and Intel®: a powerful cooperation

- close partnership since 1997 that ensures advanced access to Intel® developments
- regular exchanges of engineers between the laboratories of the two companies

A clear and timely GCOS roadmap

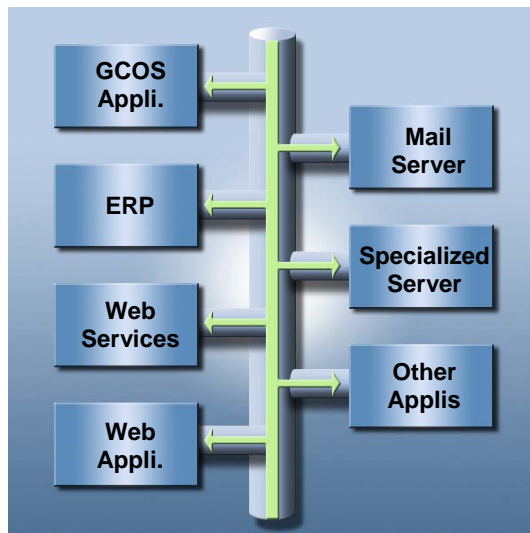

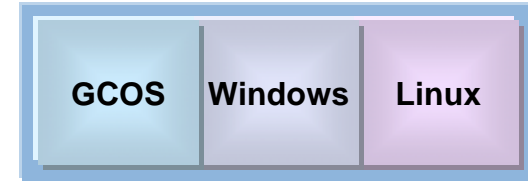

Future is secure

Easy integration of GCOS in customer's infrastructure

Multi-environment platforms

Universal Interface

Services Oriented Architecture

Standard software blocks, data sharing, ...

Skills, a key success factor

■ Within Bull

- dual competence inside all GCOS R&D staffs
- GCOS Competence Center: a multi-skill approach

■ Within customers' shops

- same skills challenge

Bull can help you

You can count on Bull

Bull counts on you

GCOS

a long term commitment from Bull
