Evaluation Methods Used:

- Mostly manual testing with the keyboard, with a magnifying program, with the JAWS screen reader.
- Color Contrast Analyzer for color checking.
- Automatic testing with ARC Toolkit and AXE toolkit.

Applicable Standards/Guidelines: WCAG 2.2AA

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017, and corrected January 22, 2018	(Yes)
EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11) AND EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

1.1 WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 - Documentation
- Revised Section 508: Chapter 5 - 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 - 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.2 Conformance Requirements](#).

Unnecessary use of alt text for decorative graphics present in "Why organisations choose Bull" section Some logos present in the "Strategic partnerships that power innovation" section have non-descriptive alternative text such as "amd500-1", "DDN_300x300_white", "GIGA_300x300_white", "Intel_300x300_white", "netapp500", "nvidia500", "redhat500", "Supermicro_300x300_white", "ibm500". These alt texts appear to be file names rather than meaningful descriptions, which do not convey the purpose of the images to screen reader users. In the footer section, the logo image has the alternative text "bull-logo-white", which is also non-descriptive and does not clearly identify the organization or the purpose of the logo for assistive technology users. <p>[Product page]:</p> <ol style="list-style-type: none"> In the "Why Bull?" section, decorative graphics are provided with alt text, even though they do not convey any meaningful information. This may cause screen readers to announce unnecessary content and create confusion. <p>[About Bull]:</p> <ol style="list-style-type: none"> Author images have non-descriptive alt text. For example, the first author photo uses the filename "addison-snell" as alt text, which appears to be auto-generated and not meaningful. This does not provide clear information to screen reader users. <p>[Our heritage]:</p> <ol style="list-style-type: none"> In the "A glimpse of history" section, the image has non-descriptive alt text such as "Fredrik-Rosing-Bull", which appears to be taken from a filename and is not presented in a natural, readable format. This may not provide clear or meaningful information to screen reader users. In the "The mission of the Bull Teams Federation" section, the image for "The Fédération des Équipes Bull (FEB) logo" has non-descriptive alt text. The current alt text does not clearly describe the image, making it difficult for
